DESCRIPTION

This little quad from Crossfire is the latest addition to Crossfire's ATV range. Its easy, exciting yet fun way for the kids to get into the four wheel thrill. The Kanga 90 is a great entry level machine for the kids to learn on.

Its great around corners and fantastic on twisty trails. Its 4 stroke motor has a linear power delivery and never catches the kids off guard.

The squeeze and go automatic transmission is agile and extremely easy to use. All the kids have to do is point accelerate and brake the automatic gearbox will do the rest.

The electric start means a push of the button will bring the Kanga atv to life. With the 3.4L petrol tank the play time does not end.

The machine is a very cheap way from the kids to get into the fun. The Kanga has features and quality not seen on machines within this price range.

For safety the throttle can be governed and the feet have fully enclosed floor boards to protect the kinds.

The Crossfire Kanga 90 is simply the most fun kids have in a safe easy to use package.

"..The Kanga is a great entry level machine for the kids to learn on.."

Although more powerful the 90cc variant the 110cc is not intimidating and simply makes for a more comfortable ride for the older kids. The power deliver is smooth and effortless thanks to the extra torque that the 110cc Crossfire motor delivers. In terms of handling the 7" wheels found in the Kanga 110cc provide that extra little bit of ground clearance and further smooth the ride.

Either Kanga you choose for your kids you are choosing a safe fun machine.
