## DESCRIPTION

The Crossfire Tonka 125 is a feature packed machine for the young rider. The 125cc step through engine is semi-automatic this means although there are gears and reverse they don't have to worry about the clutch at all as this is done all for them. Reliability comes from the Crossfire 4 stroke engine couple with a Japanese Mikuni carburettor, while safety means all the brakes and Hydraulic disc type.

Dual A-Arm front suspension and all round disc brake ensure safety and comfort. The atv is small enough for your teenage kids but may at times find Adults enjoying it as much.

"..The atv is small enough for your teenage kids but may at times find Adults enjoying it as much.."

Being a 4 stroke machine means its low maintenance with no need to mix oil and petrol the Crossfire Tonka 125 will run on pump unleaded. To make things easier the Electric start button requires a simple press of the brake lever and the little Tonka will fire up to life. The onboard alternator charges the battery as you ride providing enough power for the headlights while charging the battery for the next time you hit the electric starter button.

While safety means the front brakes have been upgraded to the latest Dual Disc brakes to further improve stopping power. This compliments the rear disc set up already found on this model.

## SPECIFICATIONS

Engine Type	125cc 4 stroke Air cooled
Bore Stroke	52.4 x 55.5mm
Item No. Specification	AES150
Max. Power(KW/ rpm)	8.0KW/8500rpm
Max. Torque(NM/ rpm)	9N.M/6000rpm
Max. Speed	60KM/h
Transmission	Semi Automatic R-N-1-2-3
Displacement	125ml
Compression Ratio	9.1:1
Carburetor	Mikuni PZ19
Battery	12V/6.5AH
Air Filter Type	Dry Air Filter Net
Starting	Electric Start
Ignition	CDI
Gearshift	Step through gearshift (Semi Automatic)
Brakes	Front: Dual Hydraulic Disc Brake Rear: Hydraulic Disc Brake
Suspension	Front: Dual A-Arm independent Rear: Single swing arm
Max Load (kgs/lbs)	95kg
Tyres	Front: 19x7-8 Rear: 18x9.5-8
Ground Clearance	100mm
Overall	1520 x 950 x 1000mm
Wheelbase	980mm
Seat Height	670mm
Fuel Capacity	6.5L
