## DESCRIPTION

The Crossfire Workmate 400 is a no gimmick workhorse. With comfortable suspension and a good quality wide seat the rider will feel comfortable after a day in the saddle.

The Workmate can operate as a 2WD or 4WD drive at a flick of a switch so traction is rarely an issue. This is further aided by a greater low down torque generated by the 400cc motor. Unlike some full auto variants the Workmate has great engine braking and ability to stay in whatever gear you choose. It can start, stop and idle on the spot in any gear. This is thanks to its Dual clutch design which means changes are seamless even under load.

*"..The Workmate can operate as a 2WD or 4WD drive at a flick of a switch so traction is rarely an issue.."*

2014 sees a tow hitch added and with a 350kg tow capacity the Workmate is no slouch. With fully enclosed foot boards, front and rear racks, 2014 will be another great year for the hard working Workmate 400.

## SPECIFICATIONS

Engine Type	400cc, Single, Air-cooled, 4-stroke
Power	16.5kw (6000r/min)
Torque	28N.m(5000r/m)
Bore x Stroke	83mm x 71.6mm
Drivetrain	2WD or 4WD
Max. Speed	75km/h
Transmission	Semi Automatic Dual Clutch, 5 speed forward / 1 reverse
Starter	Electric / Kick
Compression Ratio	8.7:1
Ignition	CDI
Foot Rest	Fully Enclosed
Breathers and Intake	Elevated
Speedometer	Digital
Drive Shaft	Maintenance Free
Brakes	Front: Disc brake Rear: Drum brake
Tyres	Front: AT25x8-12kpa Rear: AT25x8-12kpa
Seat Height	780mm
Net Weight	270kg
Max Loading	210kg
Overall Vehicle Size	2100mm x 1125mm x 1175mm
Fuel Capacity	14L
