## 250GT

250CC EFI ENGINE | ROOF | WINDSCREEN

WINCH | ALUMINIUM WHEELS

FULL AUTO DUAL RANGE TRANSMISSION

# CROSSFIRE 250GT

Side by Side UTV

The Crossfire 250GT is a tough utility vehicle that is not bulky in size and is suitable for small hobby farms. At 125cm wide it will fit into tight spaces and negotiate narrow 50" trails. And most importantly, it is not intimidating to drive.

All this and the 250GT still seats two adults in comfort with power to take you and a large tray load anywhere on your property. The full size tray tilts so it's easy to dump and reload. The 250GT is a great value alternative to larger ATVs with advantages in versatility and safety.

The Crossfire 250 GT is fuel injected so hot or cold, high or low winter or summer it will start with ease. The EFI means also the 250GT is extremely savvy with fuel with most riders needing to fill up no more than once per week if used daily. If fully loaded and extra grunt is needed, the dual range transfer case with low and high range will come into its own.

**A tough utility vehicle that is not bulky in size and is suitable for small hobby farms.**

Being a good handling light weight machine does not mean you will lose features! Crossfire 250GT is loaded with standard features that put the competition to shame.

- 2500lb Winch
- Roof
- Windscreen (2 pcs foldable)
- Aluminum wheels
- Mirrors
- Lighting (Halogen headlights, LED all other lights)
- Dual Range Transfer case high/low range
