ECR750 / ECR1300 / ECR1500

ECR750

With great torque and real outdoor tyres, the ECR750 is not your traditional ride-on children's toy. Solidly built and simple to maintain, this bike will comfortably handle with grass, gravel, concrete and even light off-road.

Please bear in mind that this model is for dry use only and should you wish to use a bike in wet, muddy conditions please consider our petrol-based models.

Riding is simple and easy with no gears, so just twist the throttle and away you go. The build quality and parts quality is very important to how much maintenance is required. This dirt bike has been specified for quality and reliability.

AVAILABLE IN:

ECR1300

This ultimate kids toy has just been unleashed. The ECR1300 is bigger, stronger, and has better specifications than any previous electric mini dirt bike. The batteries are lithium which are much lighter than lead-acid batteries, last longer and charge more quickly.

Top speed will surpass 30km/h. With that performance, you'll also be grateful for the high specification, light-touch front and rear hydraulic brakes.

Please bear in mind that this model is for dry use only and should you wish to use a bike in wet, muddy conditions consider our petrol-based models. Almost silent, this bike will offer hours of riding fun. Height, weight & skill should be considered when choosing a bike for your youth.

AVAILABLE IN:

ECR1500

This ultimate kids toy has just been unleashed. Bigger, stronger, and better specification than any other electric mini dirt bike before. The batteries are lithium which are much lighter than lead-acid batteries, last longer, and charge up more quickly.

The ECR1500 is a step up from the ECR1300 in speed and size, with a top speed of up to 40km/h and a high capacity battery that will power the bike for up to 30mins at full throttle. With that performance, you'll also be grateful for the high specification, light-touch front and rear hydraulic brakes with brake sensor switches.

Built tough and almost silent in operation, this bike will offer many hours of riding pleasure without disturbing the neighbours. Suitable for youths aged 10-14 at parent's discretion. Height, weight & skill level should be considered.
